

MSAFA

Master of Science in Accounting
and Fundamental Analysis

The MS in Accounting and Fundamental Analysis is a three-semester STEM designated program that provides academically distinguished and industry-oriented students with rigorous training in finance and economics, with a concentration in fundamental analysis and valuation. This is accomplished through a carefully selected curriculum of PhD and MBA courses.

This program equips students with the quantitative and theoretical tools needed for entry into careers in investment banking, sales & trading, distressed investing/restructuring, equity and credit research, value investing, private equity, and consulting.

Student Testimonials

Parvin Mamedov '23

Post-graduation Role
Research Analyst,
Equinox Partners

“The MSAFA program will teach you technical skills tailored for a career in the investment industry and lets you tap into Columbia Business School's networking opportunities. The combination of these two factors makes this program unique, and if you put in your share of hard work, this program is a great way to boost your career prospects in no time. Thanks to the MSAFA program, I was able to move to NYC from overseas, learn the essentials of investment management, and secure a job as a Research Analyst at a hedge fund.”

Renee Li '20

Post-graduation Role
Investment Banking
Analyst, BNP Paribas

Current Role
Investment Banking
Analyst, Guggenheim
Partners

“The MSAFA program prepared me with the fundamental and analytical skillset that directly applies to valuation and investment, used in investment banking and investment research. Accounting PhD courses are theoretically based and sometimes challenging but never stop immersing us with real world cases. I can always be involved in the MBA community and taking/auditing any classes offered across Columbia. Being in NYC is a tremendous advantage. Conferences, networking, coffee chats and other fun and meaningful events are much more accessible than anywhere else.”

About the Career Management Center

The Career Management Center (CMC) at Columbia Business School works with students to develop lifelong career management skills and empowers them to leverage the Columbia Business School network. The small size of the specialized MS in Accounting and Fundamental Analysis program allows the CMC to tailor resources and opportunities for their specific experiences and skillsets.

The CMC also works with hiring organizations across the public, private, and non-profit sectors – internationally and domestically – providing customized resume databases and opportunities for job postings and on-campus events.
